

You should start your second lab the week of April 30.
You should start your third lab the week of May 21.

- 1) "data" is plural
- 2) equations should be within sentences
- 3) use proper grammar
- 4) assume the reader has not done the experiment - explain things!
- 5) all figures need to be labeled, e.g. Fig. 3, and be referred to in the text
- 6) all figures need a caption
- 7) all tables need to be labeled, e.g. Table 1, and be referred to in the text
- 8) all tables need a caption
- 9) the conclusion should be explicit about your findings, but should not include your feelings about the lab
