

Every table and figure needs to be referred to somewhere in the text - e.g. Table 1 is cited now in comments on p. 6. If any are not, then either the figure or table is extraneous, or some additional text is needed to give it the proper context.

Voltage	pulses/second (approx.)
830	3
840	35
850	35
860	40
870	40
880	40
890	40
900	40

Every figure & table needs a caption, too. Caption on Table 3 is good. Captions on Tables 1 and 2 are probably too short, unless they are well explained in the text.

Table 2: Background Radiation

m	F(m)
0	7
1	5
